

Corporate Overview

▶ ACTi Corporate Briefing

■ Technology Leader in IP Surveillance

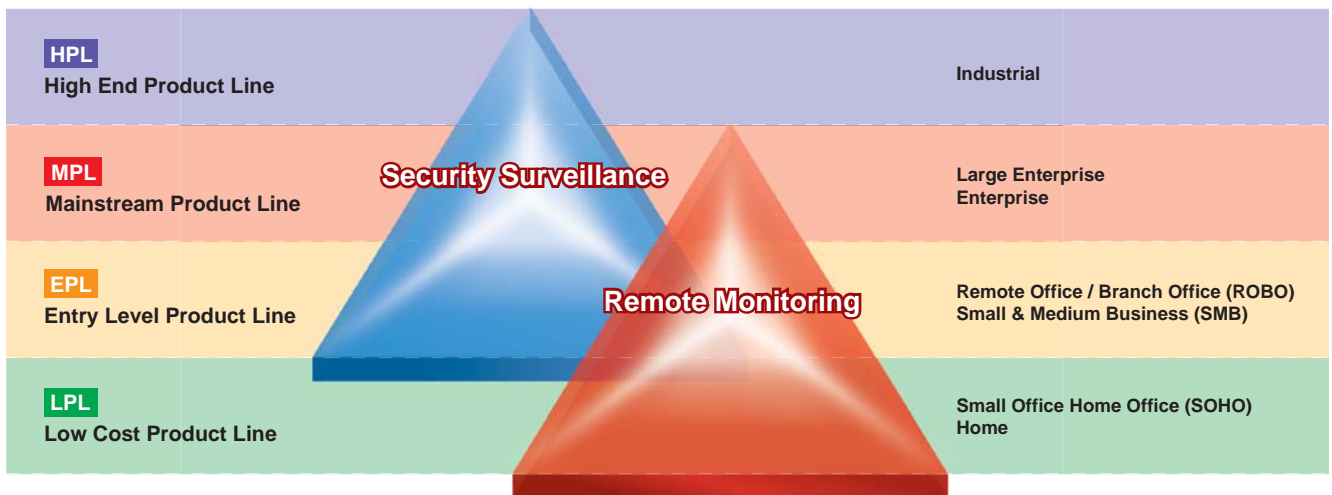

ACTi Corporation is the technology leader in IP surveillance, focusing on multiple security surveillance market segments. ACTi's extensive technology innovations in the development of JPEG/MPEG-4/H.264 has empowered ACTi's worldwide partners and customers to enjoy best quality video performances from VGA up to Megapixel resolution at minimum bandwidth.

■ End-to-end Solution Development and Integration

The core value of ACTi is the ability to develop, integrate and market complete end-to-end solutions for our clients in the IP surveillance market. ACTi's technology advancements enable complete solution offerings to cover all segments of the security market. Not only offering the IP surveillance hardware such as IP cameras and video servers, all ACTi products are bundled with free management software; in addition to the rich selection of management applications offered by leading Independent Software Vendors that support ACTi hardware.

■ Flexible Business Model to Drive Industry Revolution

ACTi partners with distributors, application developers worldwide; with flexible customization offerings to accommodate different business models. ACTi's commitment to sales, marketing and technical support will empower this innovative IP surveillance technology to be thoroughly optimized and appreciated by ACTi's strategic customers.

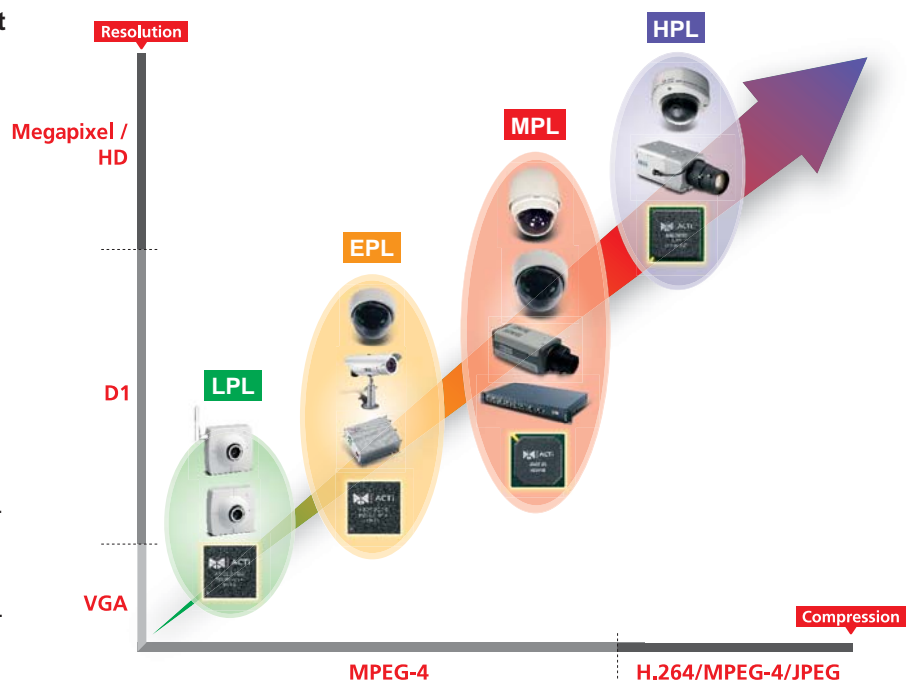

▶ ACTi Complete Product Line

■ Full Product Lines Across Different Compression Technology

According to different budget requirement, ACTi provides full product line from low cost, entry level, mainstream to high end. Each product line supports 30/25 fps at low bit rate. ACTi guarantees the high video quality while taking care of customer's budget concern.

■ Full Product Range Offering

Within each product line, ACTi offers a great diversity of cameras and a series of video servers with different channel options and extended temperature range. All devices provide unified firmware interface, and all software are built from the same SDK platform. Therefore, ACTi's one-stop shopping offerings and simple deployment platform design make the IP surveillance installation easier than ever.

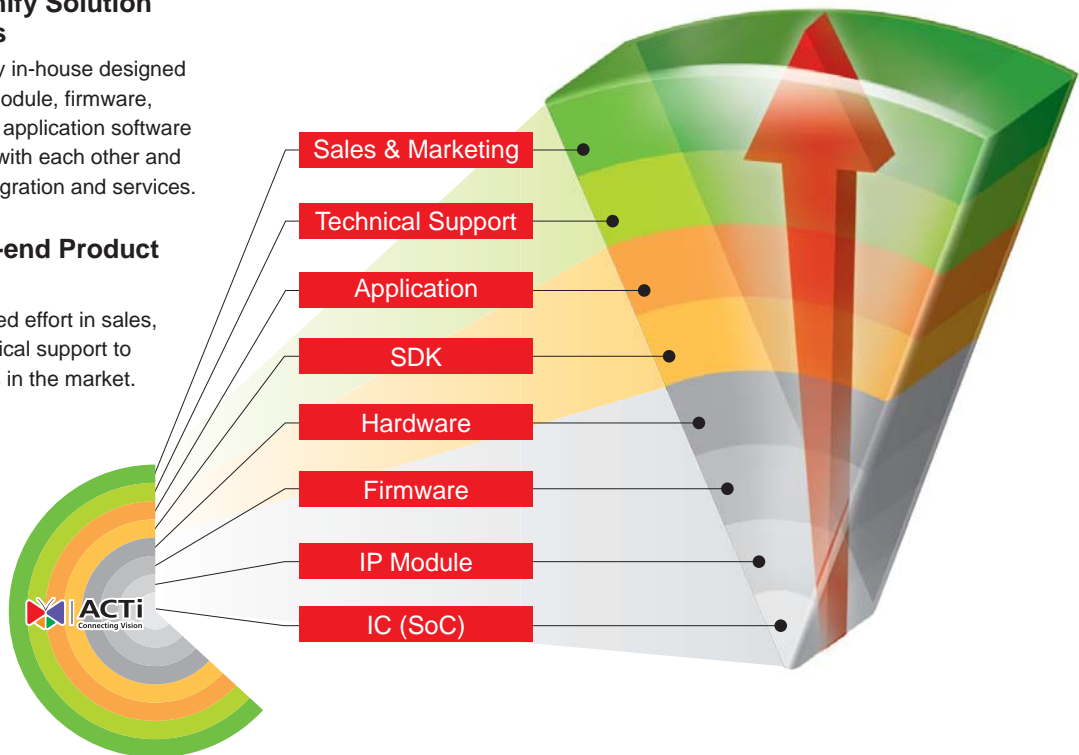

ACTi Competitive Strategy

Develop and Unify Solution Building Blocks

ACTi's independently in-house designed IC (SoC), encoder module, firmware, hardware, SDK, and application software are fully compatible with each other and are designed for integration and services.

Provide End-to-end Product Solution

ACTi makes dedicated effort in sales, marketing and technical support to ensure their success in the market.

ACTi Advantaged Solution

Full Coverage

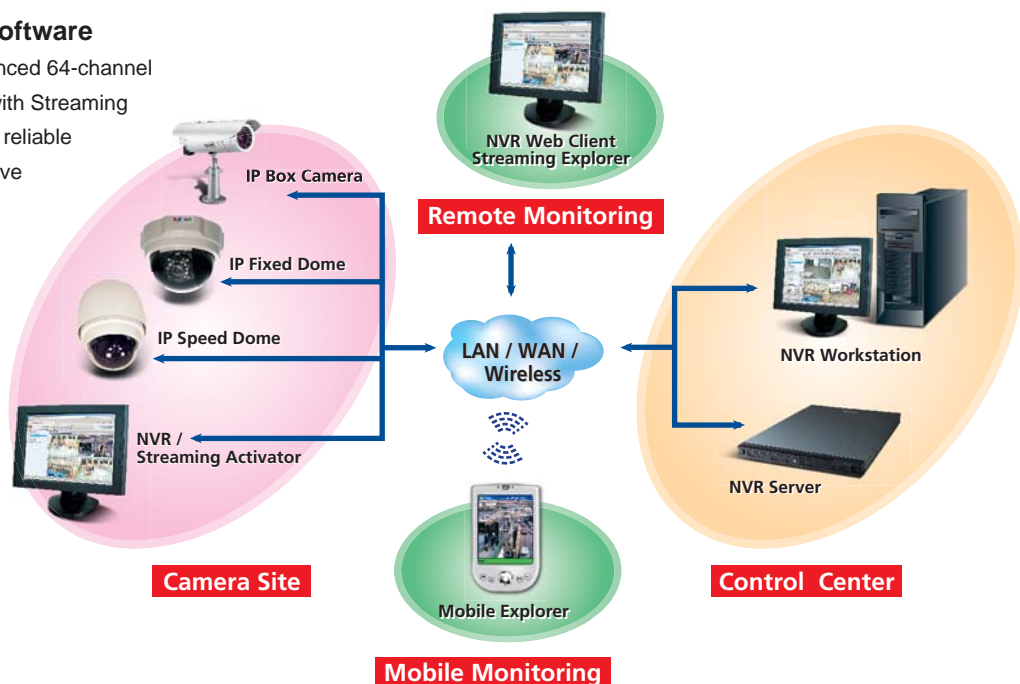

ACTi's solution structure is fully integrated to address all the application requirements for small to large systems. ACTi's selection of software and the powerful video streaming engine allows real time live view, record, playback, and control which together can enable complete IP surveillance solution, covering the camera site, remote site, mobile site and control center.

One Architecture

ACTi's strategy of one firmware and one SDK for all models ensures easy integration and application.

64-channel NVR Software

ACTi's unique and advanced 64-channel management software with Streaming Engine delivers to users reliable local and remote video live viewing, recording, playback, and control.

▶ ACTi Comprehensive Training & Supports

▶ ACTi Strategic Partners

ACTi empowers you the freedom to choose worldwide leading software solution providers.

▶ ACTi Inside

- Leading Technology**
 - Competitive IP platforms ready (JPEG/MPEG4/H.264/Megapixel)
 - Video analytics ready in 2007 Q4
- ACTi & 3rd Party Applications**
 - 64-channel Management application & top 20 ISVs ready
- Training & Support**
 - Dedicated training and source files of technical support documents ready
 - Website, FAQ, support package source files ready.
- End-to-end Solution**
 - Protection of previous investment in analog CCTV/DVR
 - Building into wide range of IP products to cover multiple market segments

ACTi will give you **time-to-market**, **time-to-service** and **time-to-revenue** IP surveillance business.
